- The Issuers of securities that are listed on the ADVANCE segment have disclosure obligations in accordance with the provisions of the SI ENTER Rules that govern the ADVANCE segment and mandatory provisions applicable to issuers on the MTF;
- Through announcements on its webpages and in the trading system the Exchange provides publicly available basic information, which enables the SI ENTER market users to form investment judgement when trading with the securities listed on the SI ENTER market, whereby each potential market user is obliged to decide, on their own and at their sole responsibility, whether the amount of published information is sufficient;
- Securities can be listed on the ADVANCE segment at an Issuer's or another person's request, and on the BASIC segment only at the Exchange's initiative;
